

### **MyAdministrator Toolbox for secure upgrades of the operational system and modifications of the PC infrastructure**

*Tool box with 8 programs for administration and maintenance of the IT in SMEs*

**Saint Petersburg / Cologne, 25 September 06.** MASCH Software Solutions, St. Petersburg, offers the MyAdministrator Toolbox in cooperation with the partners Webroot and Orlogix. It is a sophisticated combination of 8 important software packages – designed for fast and secure updates or migration of the operational system as well as upgrades of the PC infrastructure. Furthermore it contains Call & Track V5.0 of MASCH – a professional helpdesk and IT service application– which is optimized for the needs of medium-sized companies regarding the functionality. For the recommended end user price of 149 Euro a package is available which single components would cost more than twice. In particular small and medium-sized companies benefit from it as the single applications complete another perfectly and cover a wide range of application fields. Thus you can look forward calmly to migrations of operational systems in future or upgrade to the new Dual-Core CPUs without any problems.

#### **Carefree due to 8 programs and MASCH Call & Track V5.0**

The Security-Suite consists of

- **Spy Sweeper + Desktop Firewall + Pop-Up Washer**

Uninstalling old programs before reinstallation will be carried out by

- **Windows Washer + Erase MyPC**

Modifications of the PC infrastructure (e.g.. change to Dual-Core CPUs)

- **Transfer MyPC + Replace MyPC**

Comprehensive data storage and complete backup

- **Backup MyPC**

Professional Helpdesk and Support Solution

- **MASCH Call & Track V5.0**
